

Template Language for CAM Rule Applicability

3.3 Applicable Requirements

3.3.X Compliance Assurance Monitoring (CAM) contained in 40CFR64 applies to this facility, and the facility shall meet the requirements of the Provisions contained in Subpart 3, 7, 9(a), and 9(b).

The conditions of section 3.3.x are pursuant to 20.2.70.302.A.1 NMAC and 40 CFR Part 64.

3.4.1

Required Monitoring for Emissions Units

Emission Unit Nos.	Parameters To Monitor	To Comply with	Monitoring Required
X X X	O ₂ Percentage, and Temperature	40CFR64 - CAM Rule, and Emission Limits specified in section 3.1	Data Collection, once every 24 hours, Section 3.4.1.x

3.4.1.x CAM Rule Monitoring (For units XX): The permittee shall monitor gas temperature and percent oxygen concentration of the gas at the catalyst inlet of emission unit number XX pursuant to 40CFR64, Subpart 3, and continue the monitoring operation pursuant to 40CFR64, Subpart 7. The frequency of data collection shall be at least once every 24 hours. This condition is pursuant to 40CFR64.3(b)(4)(iii).

4.1.x CAM Rule Recordkeeping (For units XX): The permittee shall comply with the recordkeeping requirements pursuant to 40CFR64.9(b).

5.1.x CAM Rule Reporting (For units XX): The permittee shall submit monitoring reports to the Air Quality Bureau pursuant to 40CFR64.9(a).
